Vascular Surgical Anatomy Course

Educational needs and expected outcome

In the Endovascular Era it is important that surgeons do not lose their familiarity with the surgical skill indispensable for dealing with complications that may arise during endovascular treatment, or for confronting hybrid procedures. The participants would benefit from the experience of expert tuition in aortic surgery in a very interactive and stimulating educational context.

Objectives

This specific vascular course aims at improving knowledge of anatomical access to the thoracic and abdominal aorta and its branches including anatomic laparotomic and laparoscopic dissections and practice on fresh cadavers, with the contribution of experts in this field of Vascular Surgery.

The course is open to Vascular, Cardiac and General Surgeons from around the world who have successfully completed their surgical training or are at an advanced level of training.

The official language is English.

PROGRAM 1st DAY

Opening and Lectures 12.30 - 14.00

Anatomy of Thoracic Aorta and TSA

Anatomy of the thoracic aorta and the supra-aortic branches. Surgical access in elective and emergency situations.

Techniques of Thoracic Aortic Repair

Surgical techniques adopted during aortic repair, debranching, aortic surgery after failure of TEVAR

Surgical Dissections 14.00 - 18.00

Thoracic surgical dissections of fresh cadavers under the guidance of an expert tutor. Hands-on Training in Vascular Sutures and Graft Implanting.

PROGRAM 2nd DAY

Lectures 9.00 - 10.00

Anatomy of Iliac and Femoral Arteries

Anatomy of the iliac and femoral arteries. Surgical access in elective and emergency situations (intra and extra- peritoneal).

Techniques of Iliac and Femoral Arteries Repair

Surgical techniques adopted during the repair of iliac and femoral arteries and their use as access for endovascular procedures.

Surgical Dissections 10.00 - 12.30

Abdominal surgical dissections of fresh cadavers under the guidance of an expert tutor. Hands-on Training in Vascular Sutures and Graft Implanting.

Lunch 13.00 - 14.00

Lectures 14.00 - 15.00

Anatomy of Abdominal Aorta

Anatomy of the abdominal aorta and renal/visceral branches. Surgical access in elective and emergency situations (iuxta and suprarenal, infra-diaphragmatic, intra and extra-peritoneal).

Techniques of Abdominal Aortic Repair

Surgical techniques adopted during aortic repair, debranching, aortic surgery after failure of EVAR. Laparotomic approach to abdominal aorta and techniques to surgical repair.

Surgical Dissections 15.00 - 18.00

Pelvic surgical dissections of fresh cadavers under the guidance of an expert tutor. Hands-on Training in Vascular Sutures and Graft Implanting.

Discussion 18.00 - 18.30

Greetings 18.30 - 19.00

5TH EDITION

Vascular Surgical Anatomy Course

How to Register

International bank transfer to: **Womblab Srl**

IBAN: IT90 N030 4801 0000 0000 0091 648

Object: "**Paris VASA 2019 Vascular Course Enrollment**".

Complete the Application form (available at www.womblab.com) and send it before **September 30th, 2019** together with the invoice receipt, to the address segreteria@womblab.com or to the fax number +39 011 5612849

For Info Phone Number +39 011 4336307

Registration withdrawals before **August 30th, 2019** will be refunded at 50% of the given amount. No money refund will be provided after that deadline

Details

Maximum number of participants: 30

- **EUR 3000 + VAT 22%** (Total amount: EUR 3660)
